

Supplementary Materials Organization

Supplementary Material A: Real CAV MCMC results

Supplementary Material B: Simulated CAV MCMC results

Supplementary Material C: Real ECoG MCMC results

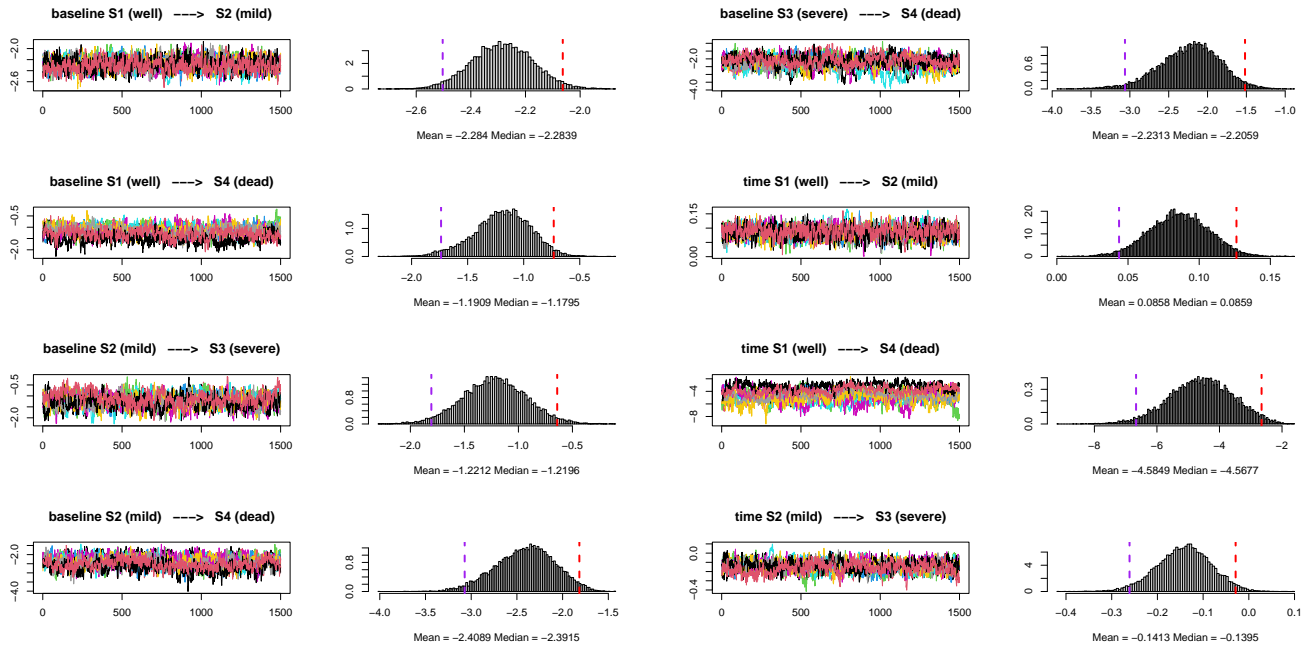

Supplementary Material D: Credible/Confidence sets for real CAV and ECoG analyses

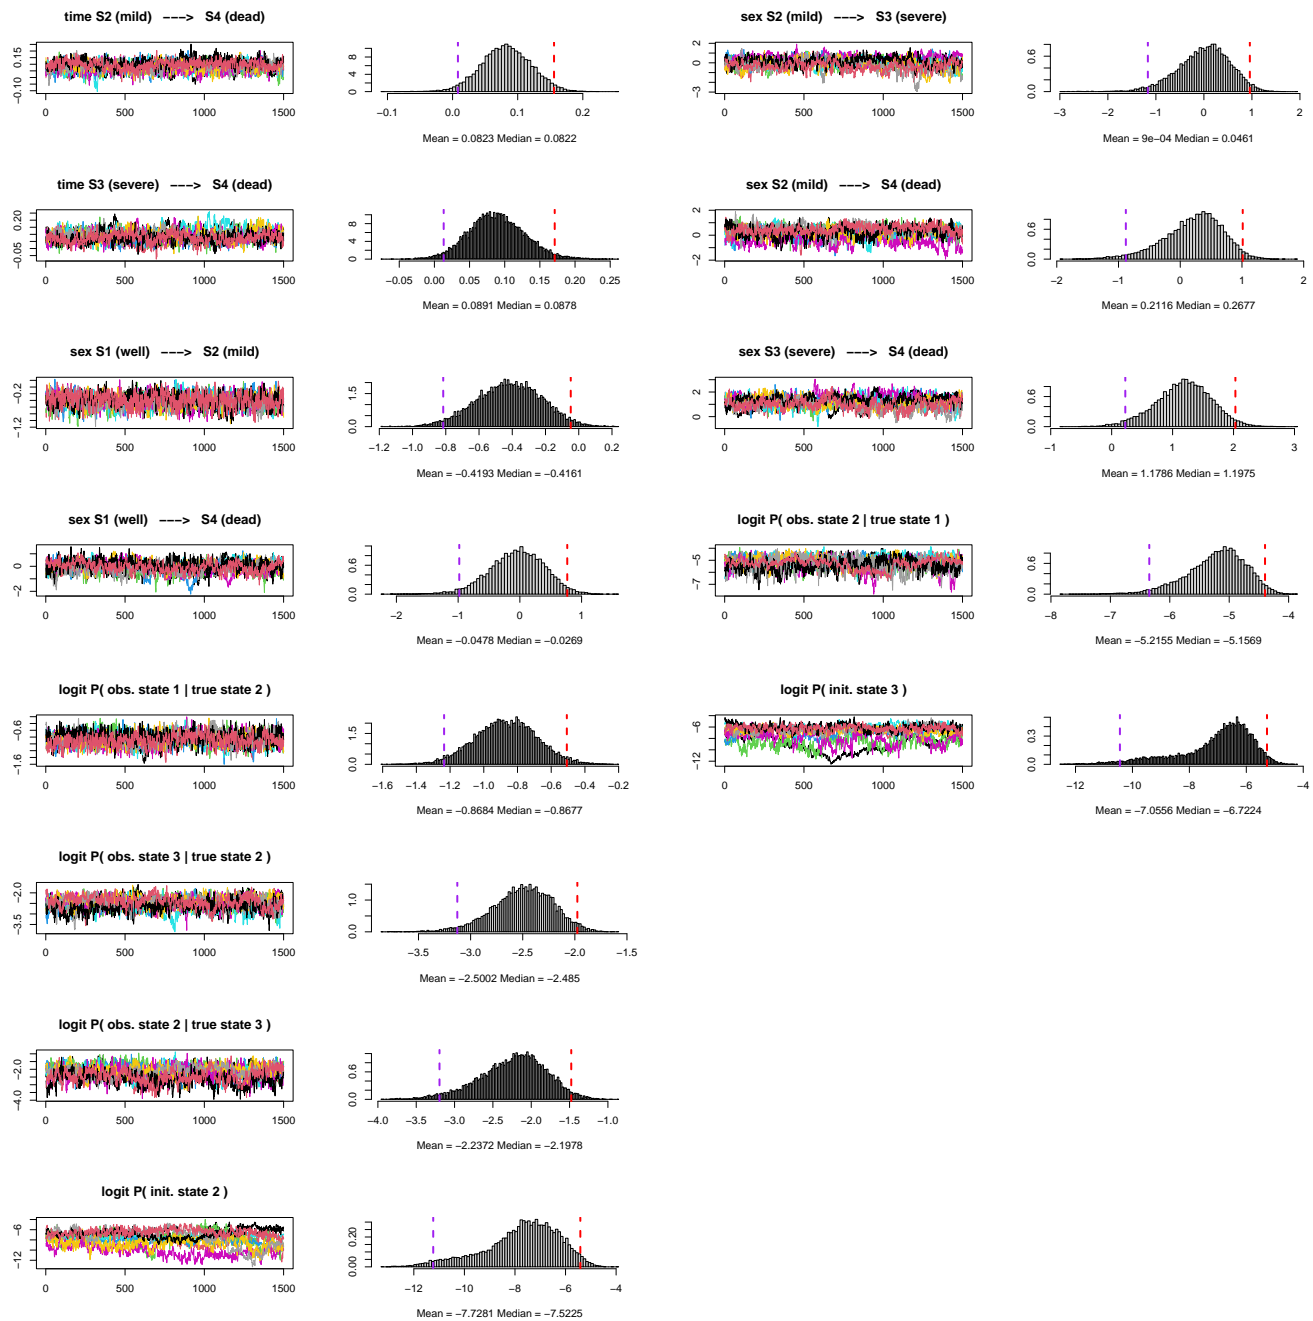

Supplementary Material E: Posterior mean/MLE violin plots for simulated CAV analysis

Supplementary Material F: Aalen-Johansen, Nelson-Aalen, and product-integral applications

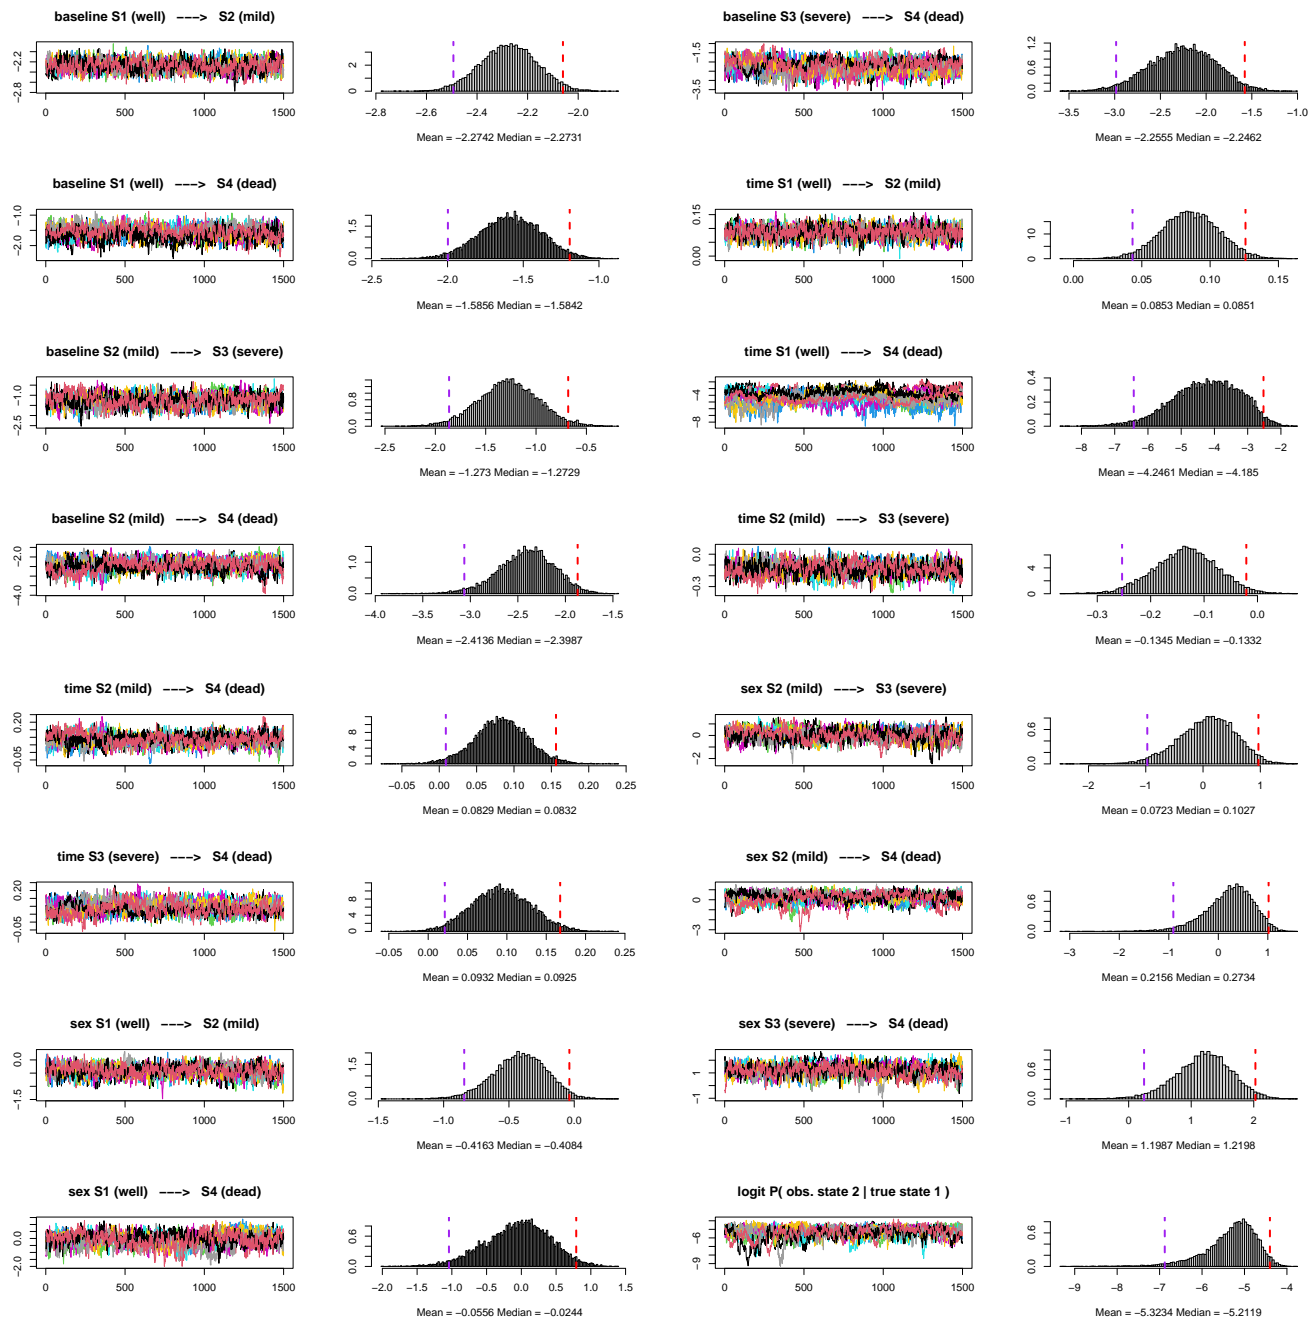

Supplementary Material A: Real CAV MCMC results

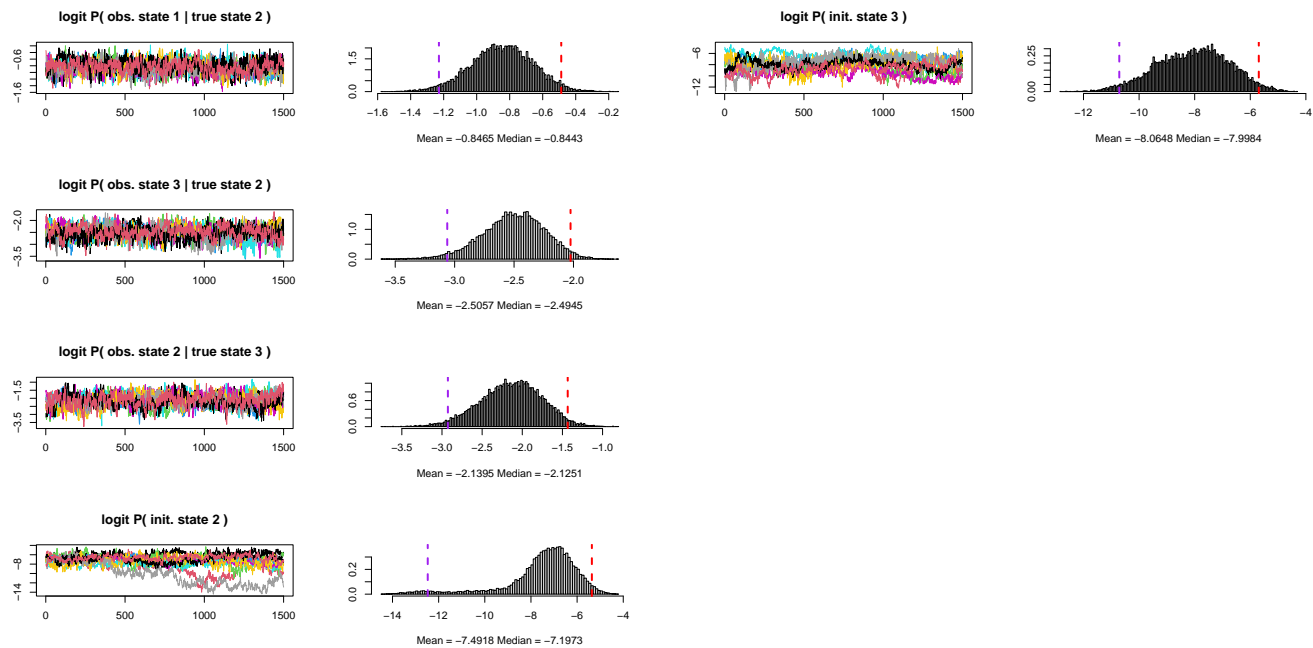

Continuous treatment of time

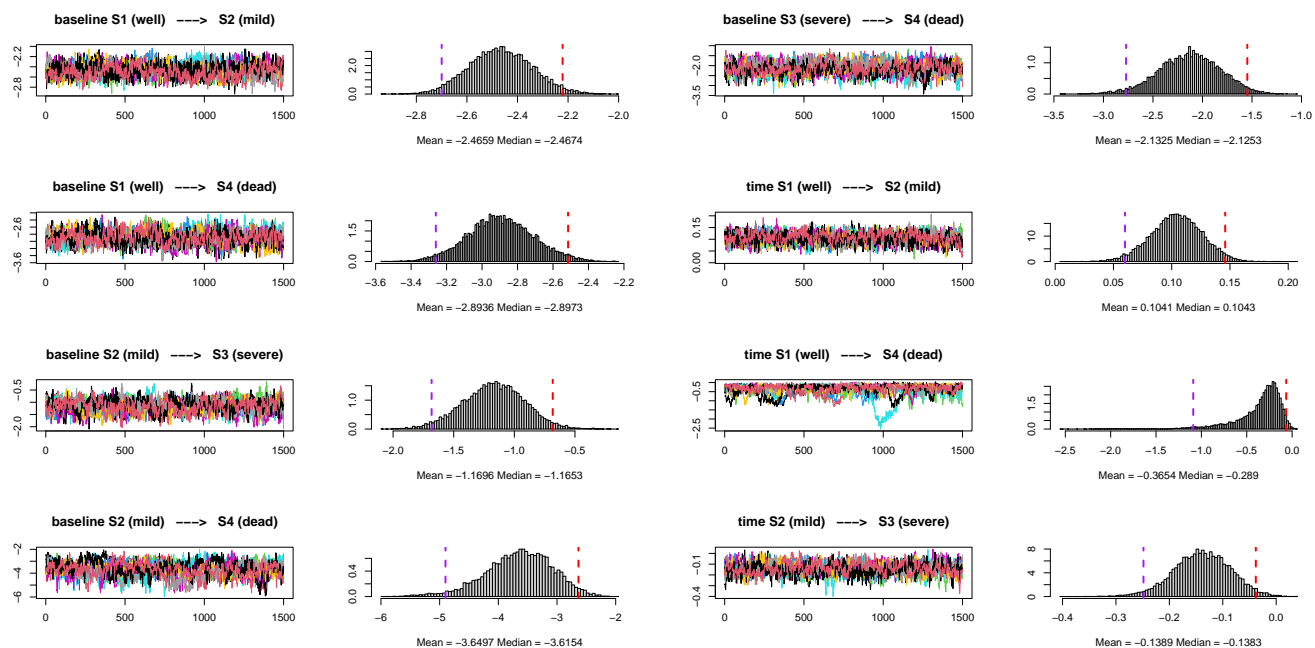

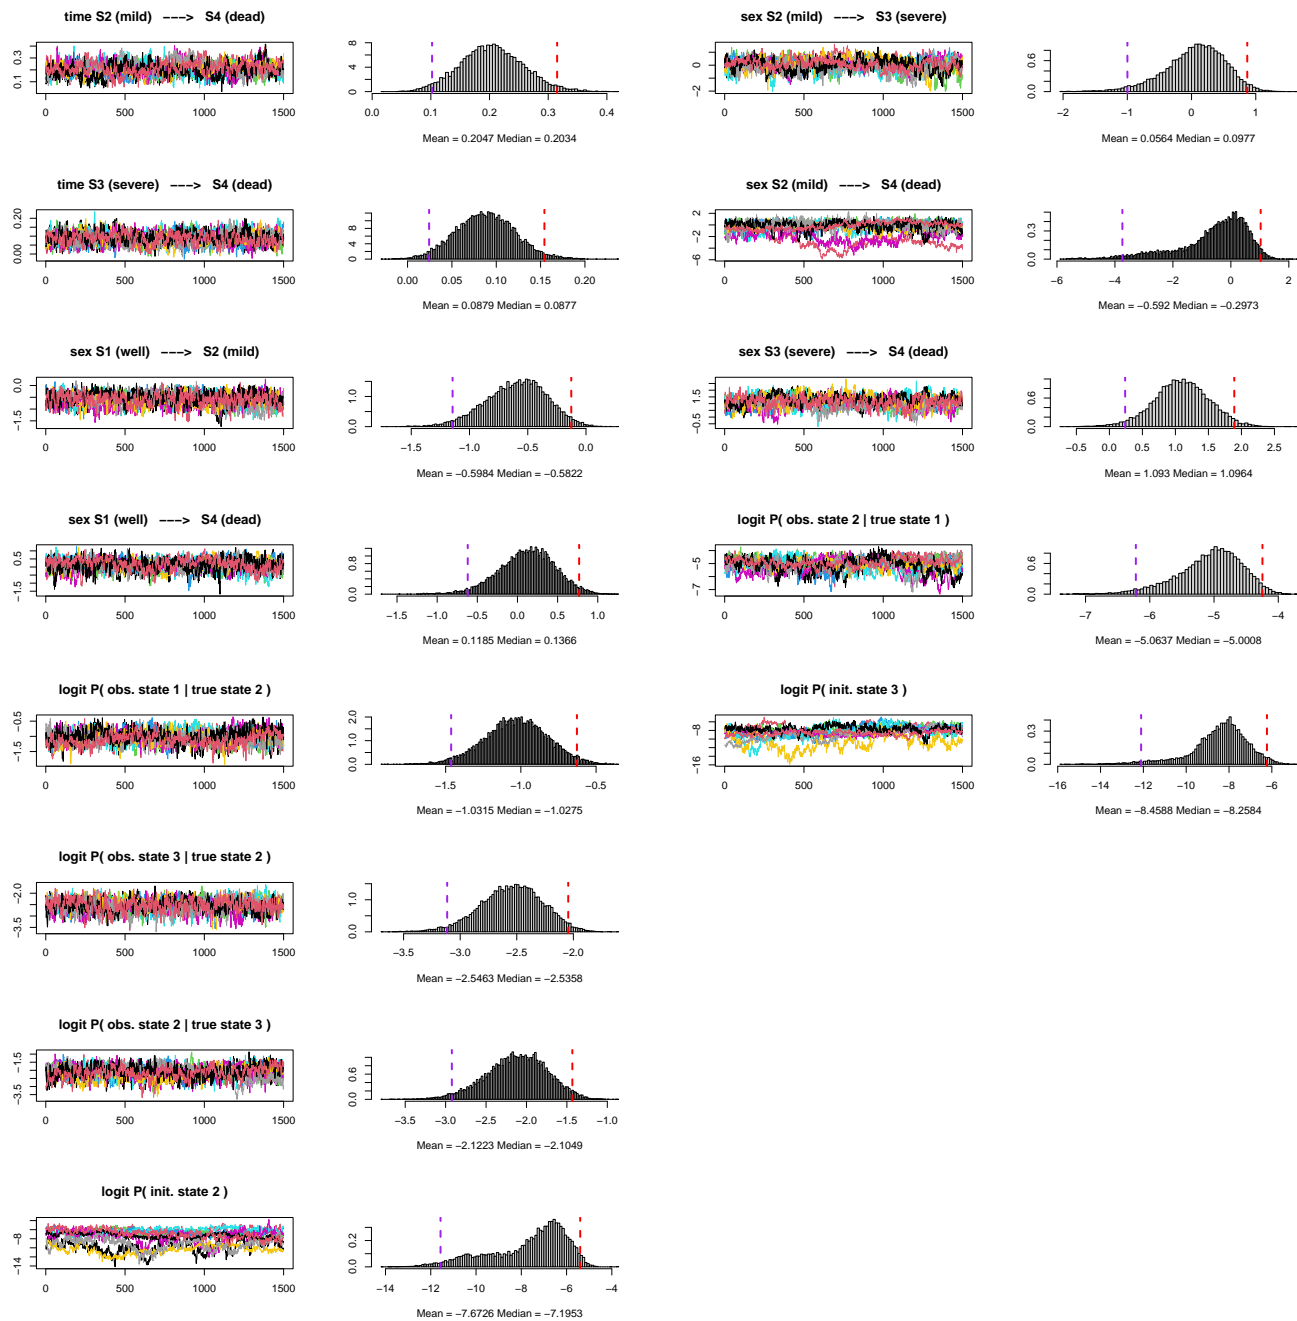

Bi-monthly discretization of time

Yearly discretization of time

Bi-yearly discretization of time
